Notice of CalFresh Emergency Allotment

In response to COVID-19, the Federal Nutrition Service (FNS) has approved California to issue CalFresh Emergency benefits to eligible CalFresh households for the months of March and April 2020. This includes households that get CalWORKs and Transitional CalFresh.

These emergency CalFresh benefits will increase each household to the maximum CalFresh benefits they are eligible to receive for their household size. Households that already receive the maximum CalFresh benefits, will not be eligible to get these emergency CalFresh benefits.

If your household is going to get emergency CalFresh benefits, they will automatically be issued to your EBT card and you will also get a text message when the benefits have been issued.
