DO YOUR PART.
GET VACCINATED AGAINST COVID-19.

NEED A REASON TO GET VACCINATED?
HERE ARE A FEW:

   In the rare case that you do still get COVID-19, the vaccine may help keep you from getting seriously ill.

2. ONCE YOU ARE FULLY VACCINATED, YOU CAN START DOING MORE.
   After you are fully vaccinated for COVID-19, you may be able to start doing some things that you stopped doing because of the pandemic. For example, you can gather indoors without masks with other people who are fully vaccinated.

3. COVID-19 VACCINATION IS A SAFER WAY TO HELP BUILD IMMUNITY.
   COVID-19 can have serious, life-threatening complications, and there is no way to know how COVID-19 will affect you. Vaccines will work with your immune system so it will be ready to fight the virus if you are exposed.

4. COVID-19 VACCINATION IS AN IMPORTANT TOOL TO HELP STOP THE PANDEMIC.
   Wearing masks and staying 6 feet apart from others help reduce your chance of being exposed to the virus or spreading it to others, but these measures are not enough.

5. COVID-19 VACCINES ARE SAFE AND EFFECTIVE.
   All COVID-19 vaccines currently available in the United States have been shown to be safe and effective at preventing COVID-19.

If you need help registering for a COVID-19 vaccine appointment please call the Fresno County Department of Public Health COVID-19 Information Line at (888) 559-2683 Monday-Friday from 8:00 am - 5:00 pm or visit the COVID-19 vaccine webpage: www.fcdph.org/covid19vax

WE ALL NEED TO DO OUR PART TO STOP THIS PANDEMIC:
Wear A Mask, Wash Your Hands, Watch Your Distance, Wait To See Your Loved Ones, and Get Vaccinated!
