

Public Service Announcement

The Fresno County Department of Social Services would like to remind the community that if you are in receipt of unemployment benefits you could still be eligible to CalWORKs, CalFresh and/or Medi-Cal, but it will be used to determine your eligibility. Additionally, CalWORKs applicants could be eligible to the Diversion program. For more information on this program, you can ask your worker during your interview as this could assist you in solving a current need or an emergency situation to obtain or maintain employment without long-term assistance.
